

by Eduard Gercog

Fifteen different plants inhabit this aquarium, allowing them to grow both over and under the water surface. The rugged hardscape and big variation in plants makes an impression of endless details. You will never finish because there is always more to discover. The rapid growth of most plants will add to this, creating constant change.

Tip! The many different plants takes a lot of time and skill to maintain.

Technique

Aquarium:	OPTIWHITE
Volume:	122 L
Light:	Natural aquario Sun Lumen 2x36W PC
Gravel:	Unipac Maui gravel
Filter:	Eheim external 2076e
CO2:	3 bubbles per second
Fertiliser (weekly):	21 ml Specialised
Maintenance (hours per week):	½-1

Plants used in this layout

A)	Pogostemon deccanensis	(053F)	4 pcs.
B)	Alternanthera reineckii 'Pink'	(023)	4 pcs.
C)	Cyperus helferi	(133A)	5 pcs.
D)		()	4 pcs.
E)	Hygrophila lancea 'Araguaia'	(051B TC)	4 pcs.
F)	Taxiphyllum sp. 'Spiky Moss'	(003G POR)	4 pcs.
G)	Anubias barteri 'Petite'	(101H)	5 pcs.
H)	Staurogyne repens	(049G)	2 pcs.
I)	Eleocharis pusilla 'Mini'	(132B TC)	2 pcs.
J)	Fissidens fontanus	(002F)	2 pcs.
K)	Micranthemum glomeratum	(048A)	5 pcs.
L)	Riccia fluitans	(001 TC)	2 pcs.
M)	Micranthemum callitrichoides 'Cuba'	(048B)	10 pcs.
N)	Microsorium pteropus 'Narrow'	(008A)	3 pcs.
O)	Bolbitis heudelotii	(006)	4 pcs.
